**Come before report card pick up

to the CPS Board of Education.**

The youngest learners in Chicago Public Schools are facing multiple standardized tests—as many as 14 in some kindergarten classrooms—inappropriate amounts of seatwork, homework, and a lack of opportunities for play, exploration, and creativity.

We know that young children learn through play. We want opportunities for play, the arts, and active exploration, returned to early childhood classrooms across this city.

**WE WANT PLAY BACK IN OUR SCHOOLS!**
